

The diagram illustrates a water supply system for two units, PDC-01 and CAL-01. PDC-01 is represented by a box with a circular symbol and vertical lines. CAL-01 is represented by a box with a rectangular symbol and an oval symbol. The system includes hot water supply lines (red) and cold water return lines (blue). PDC-01 has a hot water supply line (Øi 32) with valve VR-01 and a cold water return line (Øi 32). CAL-01 has a hot water supply line (Øi 25) with valves VD-01 and VR-02, and a cold water return line (Øi 25) with valve VCR-01. Both units are connected to a common return line.
